

## NEW! MPM 16000ULV ATF Automatic Transmission Fluid ULV

MPM is launching the new 16000ULV ATF Automatic Transmission Fluid ULV for Volvo, Ford, Peugeot, Opel/Vauxhall and others.

This ultra-low viscosity fluid is prescribed for the latest generation of automatic transmissions. Modern ATFs are becoming increasingly complex and require fluids with lower and lower viscosity. For instance, MPM 16000ULV is prescribed for the Ford USA automatic transmission with a whopping 10 gears!

In addition, this ATF is used in various hybrids but also in the transmission of the electric Ford Mustang Mach-E.

As of late May, this product will be linked in our product recommendation at [www.mpmoil.com](http://www.mpmoil.com)

### Specifications:

- ★ Aisin Warner AW-2
- ★ Ford Mercon ULV
- ★ Ford WSS-M2C949-A
