NEW! MPM 05000C5 Motor Oil 0W-20 Premium Synthetic C5

MPM already has several 0W-20 motor oils in its program. We are now expanding the program with a product that meets the ACEA (the European automobile manufacturers association) C5 specification and the OEM (automobile manufacturer's) specifications. A highly advanced motor oil with a special additives package.

Car manufacturers must meet the increasingly strict European CO₂ emission standards for new car models. For this purpose, specific motor oils are being developed with an ever-increasingly lower viscosity. When choosing a motor oil, quality always plays a role in addition to viscosity. The overall quality is expressed in an ACEA (here the C5 specification) or API (American Petroleum Institute) standard. It is important to know that the car manufacturer almost always has its additional specification (the so-called OEM specification). The MPM 05000C5 is a premium synthetic SAE 0W-20 motor oil for engines for which the ACEA C5 and/or one of the OEM specifications listed below are mandatory.

The 0W-20 C5 motor oil has been specially developed to protect modern direct-injection turbo petrol engines (TGDI) against "Low-Speed Pre Ignition (LSPI)" and is prescribed and approved for, among others, Mercedes-Benz, BMW, Land Rover

& Jaguar, and Mitsubishi (for example Eclipse Cross 4B40 engine) car models. This product is also suitable for various diesel engines of passenger cars, vans, and SUVs for which one of the specifications listed below is prescribed:

Specifications:

- ★ ACEA C5
- ★ API SN/RC, SN Plus
- ★ BMW LL-17FE+
- ★ ILSAC GF-5
- ★ MB-Approval 229.71
- ★ Mitsubishi
- ★ Opel OV0401547
- ★ STJLR.51.5122

Packaging units:

ART.NR.	VOLUME	PER UNIT	PER PALLET
05001C5	1 L	6	450
05005C5	5 L	4	112
05020C5	20 L	1	30
05060C5	60 L	1	6
05205C5	205 L	1	2
05999C5	1000 L	1	-
P05000C5	Bulk	1	-
